

We're collecting gently worn, used and new shoes to raise money to cover the cost of our service dogs Lucy, Leo and Atlas. With their help we're able to live a more independent lives. But these dogs require a lot of training so they come at a higher price and that is why we need your help. Wondering if you could help by donating any shoes you no longer need. Not only will you be helping us but the collected shoes will be giving a second lease on life in communities all over the world that need it most. It's a win-win!

We have a few drop-off locations around with a box for you to leave your shoes. Also, you can contact me to make other arrangements for the collection of your shoes.
